satisfied and loyal

With Compilatio Magister+ you prevent and detect many forms of cheating

Major Technical Differences Between Compilatio and Turnitin

Choice of document loading method

Manual addition of works saved in your computer.

Submission of work by your students via a URL to be distributed to them.

The screenshot shows the 'Compilatio magister' interface. On the left, there is a sidebar with options: '+ New folder', 'Default folder', 'Folder name 1', 'Folder name 2', 'Document database', and 'Recycle bin'. The main area is titled 'Folder name 1' and contains two buttons: '+ Add documents' and 'Collect and share'. Below these buttons is a list of documents with checkboxes, document names, status icons, progress bars, and 'Report' buttons. A 'Toolbox' label is positioned above the main content area, with arrows pointing to the '+ Add documents' and 'Collect and share' buttons.

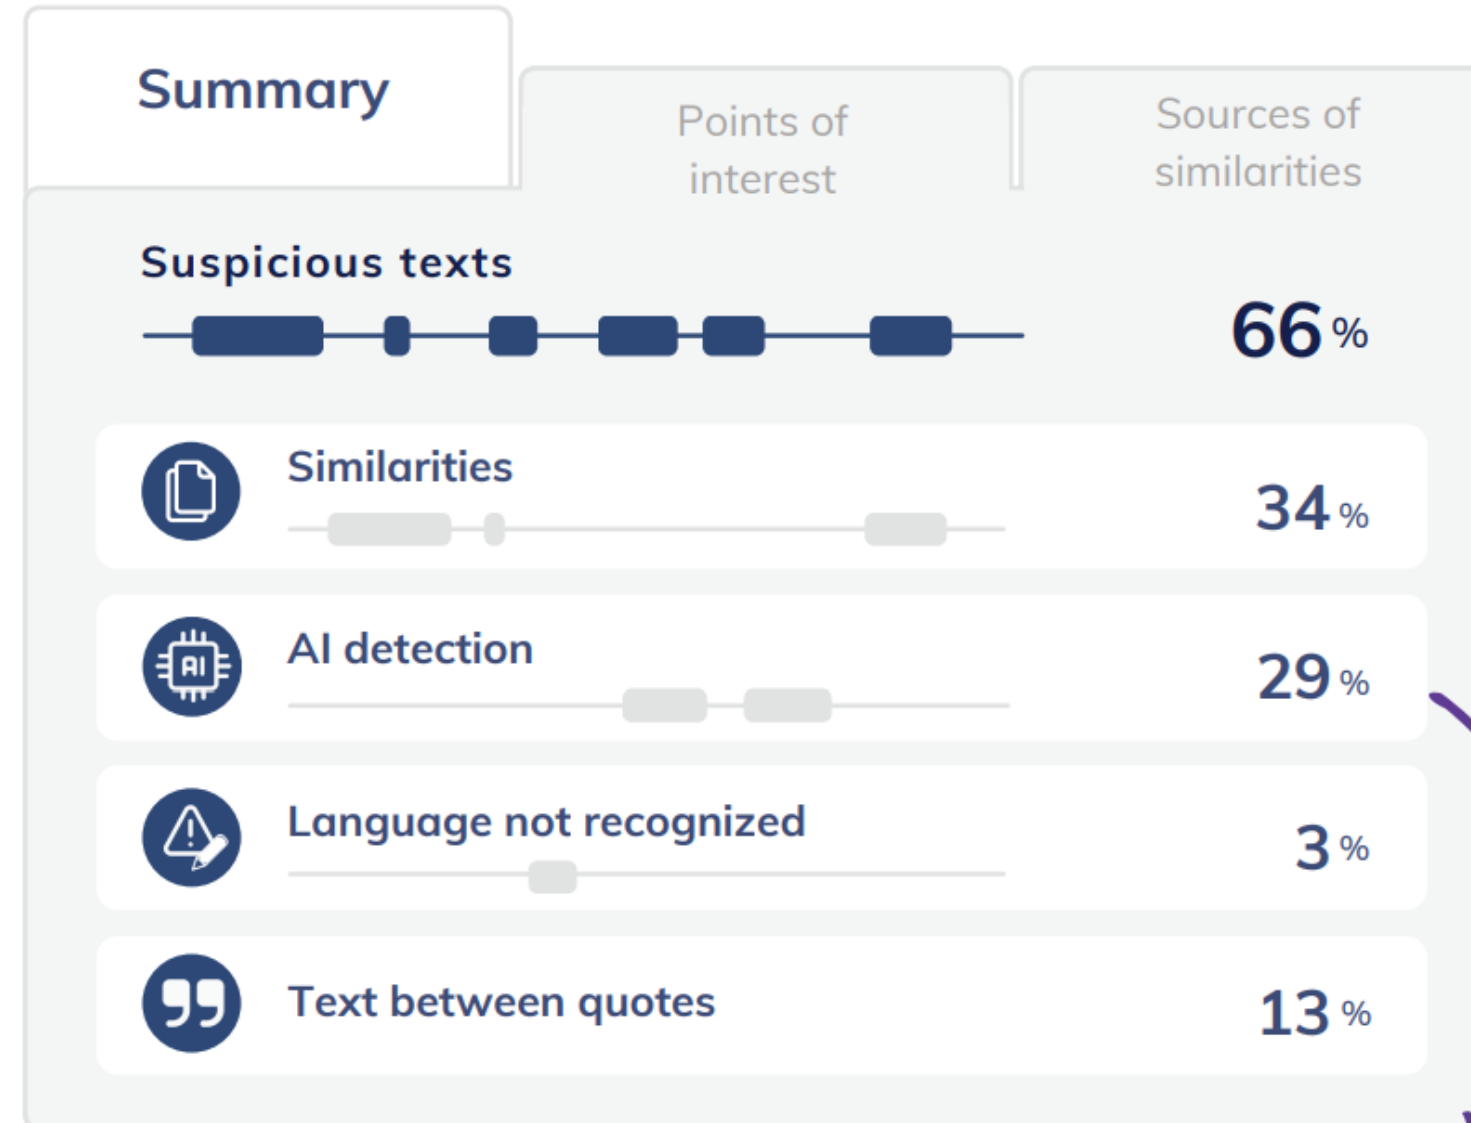

Document name	Status	Progress	Action
Document name 1	Further information	0%	Analyse
Document name 2	Further information	43%	Report
Document name 3	Further information	22%	Report
Document name 4	Further information	8%	Report

Benefits of having your students collect their work:

- saving time,
- increased awareness,
- greater involvement on the part of students who become actors in the process.

Quick understanding of results

Available only with
